Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, 11, and 12, drawn to a screen, classified in class 210, subclass 498.
- II. Claims 9 and 10, drawn to a process for manufacturing a screen, classified in class 29, subclass 896.62.

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product could be made by another and materially different process, for example, the rods could be inserted into the supporting elements by pressing without bending the supporting elements.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Clifford Kelly on 3-4-02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1723

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew O Savage whose telephone number is 703-308-3854. The examiner can normally be reached on Monday-Friday, 7:00am-3:30pm.
